to move around, even into the
tightest areas.

MOBILI KIT
5 times more active
with 5 times less efforts

THEY ARE CONVINCED, SO WHY NOT YOU ?

SYLVIE

User since 2019

Her mother Danielle,
tells us :

“ Sylvie used a walker to move in our house; but it was not safe enough. Today **Mobili Kit** avoids any fall: I feel more serene, and Sylvie enjoys full freedom of movement. She can go everywhere in the house and even go out on the terrace! For indoors, it is more suitable than a wheelchair because it is less bulky, especially for the corridors. We are very happy with it!

EMMANUEL

User since 2021

His wife Véronique,
tells us :

“ My husband was using a walker, but he had more and more difficulties, so we decided to purchase a **Mobili Kit** after meeting Robert Benoit. We are using it every day, anywhere in the house because the chair can spin around and pass the doors without having to modify their width. It is very convenient and comforting and it prevents you from falling!
